Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

TABLE OF CONTENTS

		PAGE
Experimental investigations on the genus *Razoumofskya* (with nineteen figures) - - - - -	*James R. Weir*	1
Chemical changes accompanying abscission in *Coleus Blumei*. Contributions from the Hull Botanical Laboratory **240** - - - - - - - - -	*Homer C. Sampson*	32
Interrelationships of the Taxineae (with plates I, II)	*Mary C. Bliss*	54
Significance of resinous tracheids (with five figures)	*Samuel J. Record*	61
Determination of wilting. Contributions from the Hull Botanical Laboratory **241** (with five figures)	*Arthur L. Bakke*	81
Notes on American willows. I. The species related to *Salix arctica* Pall. - - - - - - - -	*Camillo Schneider*	117
Fecundation and formation of the primary endosperm nucleus in certain Liliaceae (with plates III–V)	*Mildred Nothnagel*	143
Factors determining character and distribution of food reserve in woody plants (with two figures)	*Edmund W. Sinnott*	162
Suspensor and early embryo of *Pinus*. Contributions from the Hull Botanical Laboratory **242** (with plates VI–X and three figures) - - - -	*John T. Buchholz*	185
Notes on North American trees. II. *Carya* - -	*C. S. Sargent*	229
Fertilization in *Lilium*. Contributions from the Hull Botanical Laboratory **243** (with plates XI–XIII) - - - - - - - - - - -	*Wanda Weniger*	259
Abnormal conjugation in *Spirogyra* (with three figures) - - - - - - - - - - - -	*J. G. Brown*	269
A contribution to the life history of *Impatiens Sultani* (with plates XIV, XV) - - - - - - -	*Alice M. Ottley*	289
Notes on American willows. II. The species related to *Salix glauca* L. - - - - - - - - -	*Camillo Schneider*	318
The sporangia of *Thismia americana* (with plate XVI)	*Norma E. Pfeiffer*	354
Root variations induced by carbon dioxide gas additions to soil (with nine figures) - - -	*H. A. Noyes, J. F. Trost,* and *L. Yoder*	364

PAGE

Absorption of sodium and calcium by wheat seedlings (with one figure) - - - - - - - - - *Howard S. Reed* 374

Morphology of *Rumex crispus*. Contributions from the Hull Botanical Laboratory **244** (with plates XVII–XIX and twenty-one figures) - - - *Winfield Dudgeon* 393

Notes on North American trees. III. *Tilia*. I. - *C. S. Sargent* 421

Pine needles, their significance and history (with twenty-nine figures) - - - - - - - - *Jean Dufrenoy* 439

Limiting factors in relation to specific ranges of tolerance of forest trees (with seven figures) - - *A. H. Hutchinson* 465

Notes on North American trees. III. *Tilia*. II - *C. S. Sargent* 494

The purple hyacinth bean (with seven figures) - - *George F. Freeman* 512

A morphological study of *Pallavicinia Lyellii*. Contributions from the Hull Botanical Laboratory **245** (with plates XX–XXIV) - - - - - *Arthur W. Haupt* 524

BRIEFER ARTICLES—

Bisporangiate cones of *Pinus montana* (with one figure) - - - - - - - - - - - - *W. N. Steil* 68

Healthy and sick specimens of *Bryophyllum calycinum* *Jacques Loeb* 69

Modified safety-razor blade holder for temperature control (with one figure) - - - - - - - *T. H. Goodspeed* 176

Pollination of *Asclepias cryptoceras* - - - - - *Charles Robertson* 177

Cross-conjugation in *Spirogyra Weberi* (with one figure) - - - - - - - - - - - - *Bert Cunningham* 272

An endemic begonia of Hawaii - - - - - - *V. MacCaughey* 273

Secondary parasitism in *Phoradendron* - - - *J. Arthur Harris* 275

Method of replacing paraffin solvent with paraffin - *T. H. Goodspeed* 381

Adaptation and natural selection - - - - - - *E. F. Andrews* 382

Joseph Young Bergen (with portrait) - - - - *Rodney H. True* 455

Modification of hand microtome (with five figures) - *T. H. Goodspeed* 534

CURRENT LITERATURE - - - - - - - - 70, 178, 277, 383, 459, 537
